SUMMARY

Full-stack web developer with 5+ years of experience building modern, scalable web applications using React, Next.js, TypeScript, and Node.js on the frontend, and Go, Rust, and Python on the backend. Passionate about writing clean, performant code and teaching others to do the same. Strong interest in systems engineering and low-level performance. Co-founder of a real-time web platform. Looking to bring my hands-on development experience and teaching ability to a Web Development Instructor role.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, HTML/CSS, TailwindCSS, TanStack Start
Backend	Go, Rust, Node.js, Python, REST APIs, GraphQL, WebSockets, PostgreSQL, Redis, Prisma
Mobile	React Native, Expo
Tools & Other	Git, Docker, CI/CD, Linux, Vercel, Accessibility (WCAG/ARIA)

EXPERIENCE

Co-Founder & Full-Stack Developer

2024 — Present

Last Minutes — Real-time event booking platform

- Built the entire full-stack web application using Next.js, TypeScript, Prisma, and PostgreSQL.
- Developed a real-time WebSocket layer in Go for instant deal synchronization across clients.
- Implemented responsive, accessible UI components and optimized frontend performance for mobile devices.
- Set up CI/CD pipelines, containerized development workflows, and production deployments on Vercel.

Freelance Full-Stack Web Developer

2021 — 2024

Remote — Various clients

- Delivered production web applications for clients using React, Next.js, and TypeScript.
- Built scalable backend APIs and data services in Go and Node.js with PostgreSQL and Redis.
- Collaborated with designers to implement pixel-perfect, accessible UI from Figma mockups.
- Mentored junior developers on React patterns, TypeScript best practices, and Git workflows.

SELECTED PROJECTS

Portfolio Website

gwin-portfolio.vercel.app

Personal portfolio built with Next.js 16, TailwindCSS, and Prisma. Features a GitHub API integration that auto-syncs pinned repositories, a full technical blog with admin dashboard, an interactive terminal emulator, and dark/light theme support.

Next.js

TypeScript

TailwindCSS

Prisma

PostgreSQL

sys-mongithub.com/spidergwin/sys-mon

Real-time system monitoring dashboard with a Go backend reading Linux metrics and streaming them over WebSockets to a Next.js + React frontend.

Go

Next.js

WebSockets

React

antigravity-uigithub.com/spidergwin/antigravity-ui

Accessible React component library built with TailwindCSS and Radix Primitives. Implements keyboard navigation, focus trapping, and screen reader support following WAI-ARIA patterns.

React

TailwindCSS

Accessibility

Radix
